McPherson USD 418
Community Education Foundation

Education Foundation Awards 2008

Dear Prospective Donors:

The McPherson USD 418 Community Education Foundation was incorporated in 1990 to provide funds to support a variety of educational programs to benefit students and teachers in the classroom.

Over the past 18 years, the Foundation has provided over a hundred thousand dollars in grants to students and teachers. This would not be possible without the dedicated donors who give their tax-deductable dollars to help fund these projects.

We are proud of our programs that receive significant public funding. The Foundation allows the school district to provide additional benefits to students.

Please consider making a monthly or annual donation to the McPherson USD 418 Community Education Foundation. It is an investment in our students and teachers.

Respectfully,

Randy Watson
Superintendent of School

Board of Trustees

The Foundation is governed by a volunteer board of trustees composed of a cross section of McPherson, including educators and individuals from the community. The board is responsible for the direction and activities of the Foundation. For more information, call or write:
