

Instructor Marla Stone

Class Resource Science

Period 3rd hour

#### Course Description:

This course is designed to enhance the student's science knowledge, basic laboratory skills, and reinforce vocabulary and comprehension skills as related to science through regular education curriculum, career oriented materials or any other materials. Contents and/or modifications of this course may vary as deemed necessary to meet each student's IEP.

#### Materials needed for the class:

Calculator, Binder with notebook paper, folder for worksheets, writing utensils and textbook (bring it everyday!)

#### Types of activities taking place in your classroom:

Students will be evaluated by assignments, projects, daily assignments, quizzes, and tests.

#### How students will be evaluated:

There are 10 daily pts. available based on performance on science assignments. Test days will be double point days. Percentage on assignments determines points for that day. Example: 80% = 8/10 daily points.

#### Discipline rules and expectations:

Classroom Rules:

- 1) Arrive to class on time.
- 2) Always respect the rights of the teacher and classmates – positive conversation only!!
- 3) Keep food and drinks out of the classroom, including gum and candy.
- 4) See official school rules.

#### Consequences for inappropriate classroom behavior:

Consequences:

- 1) Verbal warning.
- 2) 10 minute detention – at teacher's discretion.
- 3) 20 minute detention – at teacher's discretion.
- 4) Severe disruptions will be sent to the office immediately.

Tardy: Each tardy will result in a 10-minute detention at the teacher's discretion. Every third tardy will equal an unexcused absence and will result in the loss of all points for that day. If a loss of points occurs, students will be required to complete all work or they will be referred to the office for academic apathy.

#### Additional Comments

Procedures:

- 1) Have all needed materials with you at the beginning of each class. If you do not have something to begin class, please see the teacher. I will allow you to go to your locker as long as it does not become a habit. I also may have supplies you can borrow----don't just sit there and not do anything about it!!!

Class Resource Science

Period 3rd hour

2) If absent, you have the number of days missed to make-up work. See the teacher as soon as you return so we can arrange your schedule to make up missed work .

3) Restroom pass – You are strongly encouraged to use the restroom before class begins. You will be allowed a restroom pass at the discretion of the teacher during non-lecture times only, unless it is an emergency. Use of the restroom during lecture time, will result in making up double the amount of time it takes to get to and from the restroom.
